The mission of Washington University School of Medicine is to lead in advancing human health through the best clinical care, innovative research and the education of tomorrow’s leaders in biomedicine in a culture that supports diversity, inclusion, critical thinking and creativity.

Our outstanding faculty are international leaders in patient care, research and education who have contributed major discoveries and innovations to the fields of science and clinical medicine since the school’s founding. Our students learn from master clinicians and researchers while pursuing their studies in a wide array of academic departments and programs. Our MD program, as well as our programs in occupational therapy, audiology and communication sciences, and physical therapy, are among the highest ranked in the country by U.S. News & World Report.

Degree Programs

Medical Education

- Doctor of Medicine
- Doctor of Medicine/Master of Public Health (MD/MPH)
- Doctor of Medicine/Master of Science in Clinical Investigation (MD/MSCI)
- Doctor of Medicine/Master of Science in Biomedical Engineering (MD/MSE)

Clinical Investigation & Population Research

- Master of Science in Clinical Investigation (MSCI)

Auditory & Communication Sciences

- Doctor of Audiology (AuD)
- Master of Science in Communication Sciences (MSCS)
- Master of Science in Deaf Education (MSDE)

Occupational Therapy

- Master of Science in Occupational Therapy (MSOT)

Regional Affiliations

Barnes-Jewish and St. Louis Children’s hospitals are the School of Medicine’s affiliated teaching hospitals, both staffed exclusively by full-time and voluntary School of Medicine faculty physicians. Additional affiliations further extend our impact.

Barnes-Jewish Hospital

The largest hospital in Missouri, it has been ranked on the U.S. News & World Report Honor Roll 22 consecutive years.

St. Louis Children’s Hospital

Honored among the country’s best by U.S. News & World Report, this hospital operates one of the nation’s largest pediatric transplant programs.

The Alvin J. Siteman Cancer Center

at Barnes-Jewish Hospital and Washington University School of Medicine One of 45 National Cancer Institute Comprehensive Cancer Centers, Siteman members include more than 360 Washington University research scientists and physicians.

The Rehabilitation Institute of St. Louis

Created through a partnership between BJC HealthCare and HealthSouth and supported by the School of Medicine, the institute provides a full range of outpatient and community rehabilitation services.

Shriners Hospital for Children — St. Louis

Staffed largely by Washington University physicians, Shriners Hospital provides outstanding orthopaedic and neuromusculoskeletal care.

Leadership

David H. Perlmutter, MD

Executive Vice Chancellor for Academic Affairs and Provost

Washington University School of Medicine

Washington University Physicians

Hospitals & Affiliates

Washington University Physicians, the school’s full-time clinical faculty practice, is one of the largest in the nation.
Faculty, students and staff collaborate on major efforts to:

● School-Wide Initiatives
  - support community development
  - uncover and address health disparities through large-scale research projects
  - provide public education opportunities and services to promote health literacy and prevention
  - introduce disadvantaged high school students to science careers through the Young Scientist Program
  - teach HIV and AIDS prevention in area public schools

● Student-Run Initiatives
  - run free weekly clinics for the medically underserved
  - gain experience in public health, community medicine and nonprofit work during orientation
  - teach health and wellness to community partners
  - support community development

Contact:
medicalalumni.wustl.edu

Alumni

Each year, MD, OT, PT and PACS alumni engage in providing philanthropic and volunteer support for their primary degree granting programs.

Scholarships and Professionships

Friends and alumni of the School of Medicine provide gifts through the William Greenleaf Elsot Society to support the academic and research priorities of the school.

Washington University Medical Center Alumni Association (WUMCAA)

The association sponsors various programs for MD alumni, former house staff and current medical students.

Distinguished Alumni Scholarship Program

This program provides full scholarships to four incoming medical students each year.

Community & Global Health

Building the Future

Washington University School of Medicine is committed to training tomorrow’s leaders who will continue the legacy of improving human health. The school’s alumni serve in vital roles in industry, as leaders at other academic institutions and as practitioners in communities throughout the world.

Research Highlights

Medical firsts include:

- Served as a major contributor to the Human Genome Project, providing the foundation for personalization medicine
- Developed screening tools and evidence-based guidelines to diagnose Alzheimer’s disease
- Created the first positron emission tomography (PET) scanner, a device that images the brain at work
- Helped pioneer the use of insulin to treat diabetes
- Developed the first medical prevention of cancer based on genetic testing — in work on medullary thyroid cancer
- Published the first evidence linking smoking and lung cancer

Ongoing clinical research includes:

- Participating in a national network to determine new ways to prevent preterm birth
- Developing new ways to diagnose and treat stroke as part of a national network of state-of-the-art stroke treatment centers
- Making groundbreaking contributions to decoding the genetics of cancer and developing personalized treatments
- Leading an international collaborative study to inherited Alzheimer’s disease and spearheading the first drug prevention trial
- Pioneering minimally invasive surgical treatments for heart arrhythmias and heart valve replacement

Ongoing basic research includes:

- Developing and using nanoparticles for targeted drug delivery for cancer, heart, lung and vascular diseases
- Launching an international effort to map major brain circuits to understand how the mind works and the roots of brain disease
- Preventing studies on the links between obesity and malnutrition in the community of microbes living in the gut
- Identifying biomarkers in the brain and spinal cord to diagnose Alzheimer’s disease before symptoms develop

Faculty & Staff

Faculty Achievements

19 Nobel Laureates associated with the School of Medicine

11 Fellows of the National Academy of Sciences

25 Elected to membership in the National Academy of Sciences’ Institute of Medicine

87 Individually and/or institutionally recognized for their work or services on the National Institutes of Health (NIH)

9 Investigators with NIH HUBERT status, which provides long-term, uninterrupted financial support

69 Cancer development awards from non-Federal agencies

Washington University Medical Center

Washington University Medical Center comprises an interdisciplinary community of institutions and individuals dedicated to preparing the next generation of health care leaders and providing solutions that advance human health locally, nationally and globally.

Corporate Partners

- Barnes-Jewish Hospital
- BJC HealthCare
- St. Louis Children’s Hospital
- Washington University School of Medicine

In addition to its corporate partners, the medical campus is home to the Alvin J. Siteman Cancer Center, The Rehabilitation Institute of St. Louis, and the St. Louis College of Pharmacy.

Financial Overview

$1.9 billion Revenue

$956 million Patient service revenue

$531.4 million Faculty research grants and contracts

$352.3 million NIH funding

$157 million Total private-source gifts and grants

Washington University Medical Center

$5.3 billion Institutional reserves impact
